 - Evaluation Criteria

Course Objectives

Why OOP?

- **Object-oriented programming** is an important paradigm
- Anyone involved in software development should be familiar with **OOP** and **Object-oriented modelling**
- All modern languages are either object-oriented or support classes and objects
 - Modern frameworks, libraries and APIs are object-oriented
- OOP is a **basic requirement** for starting a job as developer

Course Program

- 
1. Object and Classes
 2. Inheritance
 3. Encapsulation
 4. Interfaces and Abstraction
 5. Polymorphism
 6. Reflection and Exception Handling
 7. Unit Testing with AI
 8. Exam Preparation

Practical Exam

- **3 practical** problems for **4 hours**:
 - Create a simple project that:
 - Follows the **OOP principles**
 - **Implements functionality** based on a description
 - Test a provided class
- Automated judge system with **real-time feedback**
 - Upload a zip project to the judge system

Theoretical Exam

- You will have **30 minutes** once you enter
 - Multiple-choice with **one** correct answer
 - English
- Automated quiz system
- Available during the **practical** exam and **30 minutes after it**
 - You can submit your answers just **one time**
 - Advice: Start it when you **finish** the **practical exam**

The Team

- **CEO @ AMBITIONED**
- **Technical Trainer @ SoftUni**
- Creator of the most detailed [software architecture course](#)
- **Contacts:**
 - <https://github.com/ivaylokenov>
 - <https://linkedin.com/in/kenov>

- Advanced Unity Developer @ **Coherent Labs**
- Top student from the first graduation @**SoftUni**
- **.NET Web Full Stack Developer**
over 10 years of programming experience
- Experienced with: *C++, Python, Java, JavaScript, PHP, Database management*
- His passion lies in the world of **Unity3D**

Course Organization

C# OOP Course - Timeline

04-May-2026

27-Jun-2026

04-Jul-2026

C# OOP

7 weeks

9 credits

Start: 04-May-2026

Regular Exams

Final exam: 27-June-2026
Theoretical Exam: 27-June-2026

Retake Exams

Final Exam Retake: 04-July-2026
Theoretical Exam Retake: 04-July-2026

Homework Assignments & Exercises

- Your homework is mainly work in class
 - Lesson days → slides + live demos + exercises
 - Exercise days → only exercises
- How to submit your homework?
 - Submit in the judge system
- Do your homework when it's due
 - Assignments pile up quickly

- Official web site:

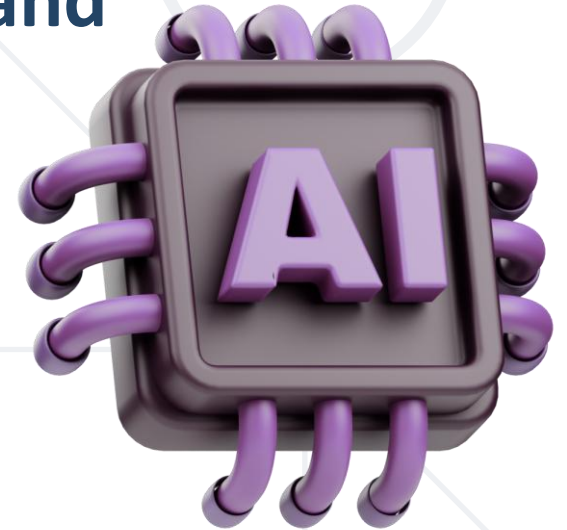

<https://softuni.bg/trainings/5228/csharp-oop-may-2026>

- Community Facebook group:

<https://www.facebook.com/groups/csharpoopmay2026>

- The course assignments require to **search and explore**
- Using **AI assistants** like **ChatGPT** or **Copilot** is part of the modern developer's workflow.
- Some exercises will challenge you to **analyze, verify, and adapt** AI-generated solutions — not just copy them.
- Learn to **combine your knowledge** with AI suggestions to build correct and efficient solutions
- No excuses — **learn how to learn smarter!**
- Developers today use AI daily to master new technologies, tools, and languages!
